

COAST GIS 07: GIS TECHNOLOGIES AND SPATIAL DATA INFRASTRUCTURES FOR THE INTEGRATED MANAGEMENT OF COASTAL ZONES AND THE MARINE ENVIRONMENT

Welcome

The organizing committee invites you to attend CoastGIS 07, the 8th International Symposium on GIS and Computer Mapping for Coastal Zone Management. The conference will take place in Santander, Spain, between the 8th and the 10th of October, 2007.

This is the eighth of a series of conferences with an important international scope (up to 30 countries from all continents). The CoastGIS conferences began in 1995, and the last host was the city of Wollongong, Australia, during which over 80 papers were presented. Other important venues have been Aberdeen in Scotland, Brest in France, Halifax in Canada and Genoa in Italy.

Over 200 professionals from the GIS and/or coastal management fields are expected to attend, representing a wide range of academic, governmental and commercial interests. The main objective of this conference is to create a meeting place in which the most relevant issues and the newest breakthroughs in GIS applications for littoral and marine environments will be tackled by internationally renowned experts.
